Questions: (252) 297-3300

Please don't let tires accumulate on your property. They provide homes for mosquitoes and other pests. You may dispose of them properly at no charge at PCG Landfill year round. But the best practice is to leave your old tires at the dealer when purchasing new tires. The dealer will properly dispose of them (you automatically pay the state's fee for disposal when purchasing new tires.)

**Some exceptions exist for large quantities or out-of-state tires*
